Farms and Homes Carry on Traditions Set by Prosperous Pioneer Dairymen

By JOHN GIBSON

Alliance is located north of Arcata, approximately 100 miles from San Francisco. The original community was started in a tract of land for the rich and famous dairyman, Archie Park, who was one of the first to settle in the area. The land was purchased by Park in 1850, and he began to develop it as a dairy farm. The community grew up around his farm, and it became known as the "Alliance" because of the many alliances that were formed between the farmers.
