

LP/HAMMOND SAMOA INVENTORY 2014

Boxed Plans & Drawings (PDs)

BOX 53: PD 1351 through PD 3802

NOTE: These PDs were moved from file cabinets and placed into boxes in 2014. This handwritten list replaces the 2006 Inventory Worksheet which only included PD numbers. PDs are grouped into folders and the contents of each folder are indicated by hash marks. Dates are included for reference purposes and titles are as found on the original documents. Items marked with an "R" were removed due to their condition and were placed into map drawers. See the "Inventory-List of PDs Removed" for the location of those prints and drawings.
