<p>SKETCHES AND DRAWINGS-(SK, A) Hammond/Georgia Pacific/Louisiana Pacific, Engineering Department: Plans, sketches and drawings relating to past, active, or proposed projects within the company. During the Hammond period, the term "SK" may refer to small drawings or preliminary sketches. It was replaced by "D" after February 7, 1930 for larger drawings although it continued to be used for small plans. The "A" Drawings generally refer to a construction account or active project within the company. A new series "A-1" was initiated by Georgia Pacific. Document numbers may be applied to proposed and revised versions of the same plan, or to reference copies of other plans used in that project. The practice of referring to plans for internal projects as sketches and drawings appears to have continued through subsequent company ownership. These documents were generally filed or grouped in numerical order. Fair condition. Date range ca. 1908-1974.</p>				
<p>SKETCHES AND DRAWINGS: A-328-A 5629, Ca. 1908-1961; SK 3-SK 5460, 1927-1950.</p>				<p>Box 57</p>
No.	Date	Title	Description:	Folder
NN	1927-1929	[Lists of sketches,-Burner, Cranes, Factory, Hydrant & Sprinkler, Misc., Monorail Survey notes, Planing Mill, Power Plant, Resaw, Sawmills, Shay Locomotives, Warehouses, Yard]	Pencil on drawing paper; list of numbers assigned to company projects during this period.	1
