STUDENTS LEARN MANY PROFESSIONS AT HSC

By ED STEINBERG

The steadily increasing enrollment of students during the past three years at Humboldt State University is the result of the excellent training given at the Humboldt State College of Education, which is the largest and best equipped of its kind in the state.

From the day of its first classes in 1892, the college has been a center of learning for the young men and women of the Redwood Empire. It has been a place where the best of the state's educational talent has gathered, and where the highest standards of scholarship and professional training have been maintained.

The college's curriculum is broad and comprehensive, covering a wide range of subjects from the liberal arts to the sciences. It is designed to prepare students for a variety of careers, including teaching, social work, and public administration.

One of the college's major strengths is its faculty, which consists of some of the finest educators in the state. They are dedicated to providing their students with the best possible education, and to helping them to reach their full potential.

The college's facilities are also excellent, with modern classrooms, laboratories, and a well-stocked library. It is a place where students can learn in a comfortable and stimulating environment.

As a result of the college's high standards and excellent training, its graduates are highly respected and sought after by employers throughout the state and beyond.

The Humboldt State College of Education is truly a center of excellence, and it is proud to be the educational heart of the Redwood Empire.
