Scale 50' to 1"

EUREKA, CAL.

HUMBOLDT CO.

Population - 7000 - Water Supply from artesian wells by steam pumps and elevated tanks, and thence to cisterns. - Fire Apparatus. 2 Steam and 1 Hand Engine, 950 feet Leather · 2300 feet Rubber and 1800 feet cotton hose. Volunteer Department 130 members. Prevailing Winds N & N.W in Summer S.E. in Winter.

Eureka is on Humboldt Bay 225 miles from San Francisco, is the outlet of all Lumber shipments from Humboldt Co. and depends on the Milling interest of the Co. for support. All frame buildings are built of Redwood and as climate is damp and foggy, and rain plentiful, fires are not easily started. Present water supply for fire purposes, in blocks back from water front is inadequate, but a Company has organized to bring water from Jacoby Creek about 8 miles - for domestic and fire purposes and will introduce system of pipes and hydrants.

Notice. - E.A. Dalton will deliver to the purchaser of one copy of this Map, a duplicate, for the use of the Company. Local or General Agent of such purchaser, but it is mutually agreed, that it shall not be otherwise used, and if not so used, shall be returned to said Dalton.
