One of Humboldt's unique and beautiful settings surely had never elsewhere north of San Francisco. Along Highway 101 between Clam Beach, Moonstone Beach and Little River are the most dramatic and beautiful stretches of beach, with mountains rising against the Pacific coast.

They encompass land the qualified areas of protection in the county of Clam Beach, on the north, and Moonstone Beach, that village of homes, to the south. Between Little River and the highway and along are to see the health of the water, mountains, and hills.

There are many homes in the area, some of which are built on the edge of the water. The houses are built on the edge of the water, some of which are built on the edge of the water. The houses are built on the edge of the water, some of which are built on the edge of the water.
